At the Methodist Episcopal church, Sunday, Prof. G. H. Laughlin will preach at 10:45 a. m. and Prof. E. M. Goldberg at 7 p. m.

Rev. John Gillies will be absent from the city Saturday and Sunday, being called to Revere, Clark Co., Mo., to dedicate a new Methodist church.

A few of our citizens are unwell, but not enough of them to make the season seem unhealthy. A few voted against water-works too, but not enough to make Kirkville seem non-progressive.

J. B. McClesney received a telegram from Staunton, Va., Tuesday morning, notifying him of his father's death, which occurred suddenly Monday evening. Mr. McClesney left for Staunton on the first train.

Mrs. Elisabeth Church, wife of Joel Church, of Polk township died Monday evening of pneumonia. This is the second death in the family within two weeks. Mr. Church has the sympathy of the entire community in his sad bereavement.

A discomfited member of the opposition was heard to remark, with enough disgust in his voice to start a country grave-yard: "The whole town seemed to be Baptists and Campbellites last Tuesday." Well, it is refreshing to think this man will soon have ample water facilities for joining the big majority.

It is the common verdict that the "green goods" victim is a "greenhorn." He is a man at least who will not profit by the experience of others. And the situation is also such as to expose his moral bias in a way that precludes sympathy. He is one of those fellows who lean lovingly upon an evil, just because it is a "necessary" one.

The revivals at the Christian and the Baptist church continue, with much interest and a number of accessions. Messrs. Hedges and Brown are men of a stamp to wield a broad influence wherever they go. Neither ever grows monotonous or prosaic, and Kirkville is proud to manifest its appreciation of both. The churches are crowded at each service, and doubtless their presence here at the same time conduces to the comfort of their respective hearers.

Oh, those beautiful, beautiful days, they are neither long nor dull, and they spill God's blessed sunshine down to tickle the thickest skull. There is in the air and all about a glorious sense of ease, while suggestions come from the vernal shores of roses and pinks and peace. As the unemployed stand on the streets and pray for labor in vain, no doubt they enjoy this weather that seems to come over to us from Spain. Oh, neighbors, to Wilson let us write, with charity and good will, saying: "We thank God for those beautiful days, which defy your tariff bill!"

In order to train singers for the choirs of the various churches for the purpose of giving a series of concerts, and for social purposes, the Kirkville Choral Society, under the auspices of the Richard Wagner Conservatory of Music, was organized. At its first regular meeting, forty members were enrolled. Since in two weeks the practice of Root's beautiful Cantata, the Haymakers, will begin, and a chorus of seventy-five is needed, all singers of this town are invited heartily to join this society, which will be an honor to Kirkville. Place of meeting, Methodist Episcopal church; time: Saturday evening at 7 o'clock, sharp.

Louis Ainslie, of Adair, was in the city Thursday. Mr. Ainslie is one of the fortunate ones who made the run for lands in the Cherokee Strip, and secured a valuable quarter section within two miles of Pond Creek, the county seat of L. county.

Ludden & Lord have sold their grocery store to Garrett & Pease who will continue the business at the old stand. Mr. Pease has long been connected with one of the largest retail groceries in Quincy, and has a thorough knowledge of the business. Mr. Garrett needs no introduction as everybody knows him. We predict for the new firm a great success.

Miss Bernice Costello, the distinguished elocutionist, in her new and original recitations and impersonations will give an entertainment at the Presbyterian church Thursday evening, Jan. 25. Her rendition of the story of Damon and Pythias is worth many times the price of admission, and no K. of P. can afford to miss hearing her. Proceeds for the benefit of the church.

The revival services at the Baptist church will be continued next week, the pastor to be assisted by some good man. Mr. Brown has won the hearts of all who have heard him, and up to Wednesday night there had been twenty additions, of whom fifteen were for baptism. The church has been greatly revived. Services by the pastor Friday night, Saturday night and Sunday.

Three of the young men of Kirkville, who hanker after theatrical fame, went to Goldsberry recently and gave a "nigger" show. Their performance failed to be in touch with the moral sentiment of the people of Goldsberry, so they came away foot-sore and weary, with the sacred relics of antiquated eggs clinging to their clothes. "Try, try again" is a good motto, but it would perhaps be thrown away upon these young men.

W. P. Hall paid yesterday for horses here prices ranging from \$30 to \$70. Horses are low, but many have to sell.

Dr. R. C. Norton, who accepted the position made vacant by the resignation of Prof. Muir, arrived Monday and has entered upon his duties.

By the death of Grandpa Darrow Kirkville loses one of her oldest and best citizens. He was indeed a model citizen, neighbor and friend. He will be greatly missed.

F. F. Stanton will have a special sale of lamps for one week, beginning to-day. This sale includes everything in the line of fine hanging lamps and parlor lamps.

Our witty compositor has discovered that the mild weather was the cause of the Willmathville Crabtree's suddenly becoming green. It is probable that our witty compositor will recover.

Numerous fires were started by the Wabash mail train last Friday evening. A large extent of Jos. Marquess' farm in Polk township was burned over and his entire hay crop, which was in stack, was destroyed.

A number of postal cards have gone from Kirkville this week to Hon. W. H. Hatch, requesting him to use his vote and influence against the Wilson bill. They will at least afford him some "mighty interesting reading."

A correspondent suggests that the artesian well stock be utilized in establishing a canning factory. He thinks outside capital and experience would readily respond. He mentions the folly of delay, and pertinently inquires, "Who will call a meeting?"

Plowing in January isn't common in this part of the country. At all, but the "oldest inhabitant" of later years may credit the present month with that distinction, though it may be hard for posterity to believe him. It generally is.

Oh, the snow, the beautiful snow, of the winters of years ago, where has it gone, so pure and white, like a wintery dream of the land of light? The people go driving now on wheels, and they all don't know how badly each feels, for whenever or how they take a trip, they're sure to return with the ruthless grip. Oh, merciful fate! is the tariff so low, this weather from Spain has spoiled our snow?

The Ladies' Benevolent society of Kirkville has been organized for the purpose of assisting the worthy needy. In distributing aid, religion, politics or previous condition of servitude is not considered. Contributions of old clothes that can be made serviceable for children, are solicited and same may be left at Burke's tailor shop. The officers are: Mrs. Wm. Hart, President; Mrs. H. C. Sohn, Vice-President; Mrs. A. Burke, Secretary; Mrs. L. M. Hart, Treasurer.

FLEECE.

Last Tuesday evening Anderson Crabtree, of Willmathville, was fleeced out of \$500. He came to town Tuesday to close a deal in some lands, and with him came a young man who he said was a neighbor. Between 7 and 8 o'clock, as Crabtree tells the story, he and the young man went to the Wabash depot to inquire as to the departure of the next train for the north. On the platform they met a man, who claimed acquaintance with Crabtree, and informed him that he had valuable goods to sell, out of which big money could be made.

The stranger requested Crabtree to leave his money, if he had any, with the young man who was with him, and go with him to examine the goods. When they reached the National Bank the stranger pretended that he had forgotten his keys, and asked Crabtree to wait while he went for them. Instead of going for the keys, however, the stranger went back to the young man, who was to wait at a designated spot for their return, and informed him that he and the old man had made a trade, and he should hand over the money, which the obedient young man promptly did.

When Crabtree reached the young man and found what had occurred, it did not take him long to make up his mind that he had been fleeced. He kept the matter a secret till next morning, when he told the story of his tribulation to an old friend, and together they went to the officers to take steps to recover the money. In the talk with the officers it developed that it was "green goods" Crabtree had gone to examine, and the amount was \$7,000. The swindler has not been apprehended yet, and perhaps the old man has hardly become aware that the scheme was loaded so as to kick the marksman. The truth is, the old man has fooled with a boomerang and foolishly stood in its circuit. When he gets older, he may read the papers, discover his folly and reform. The community would like to see the swindler brought to justice, but it isn't wasting sympathy on the victim.

All Around Us.

There is talk of building around the DeKalb county jail a barb wire fence to hold the prisoners. Would it not be better to build a new jail to put the old one into?

A man at Hamilton advertises Chester White pigs of both "sects." No man who carries sectarian difference so far as to expect to be popular with a pork-loving public.

At Laddonia a spiritualist went to a haunted house on a still hunt for ghosts. The city marshal was a skeptic, however, and arrested him, without taking a single spirit-along to keep him company.

Champ Clark's admirers in Audrain county have presented him with a cane. Evidently they think the next "nigger" may have a harder head than the other. Champ will perhaps not fail to take his cane with him when he goes into saloons now.

Gov. Stone has appointed John L. Graves treasurer of Scotland county, to fill a vacancy caused by death. Mr. Graves seems to thank himself more than the governor for the position, and perhaps a number of Democrats in the county think Mr. Stone made a grave mistake.

Our exchanges are serving notice on their readers that the quail law expired January 1st. No doubt many of those readers will continue to shoot into brush piles and the like on suspicion of rabbits, with the result of killing a quail or two. When the average hunter goes quailing, no law can make him quail.

The post-office at Memphis was moved last week, though there was much opposition from business men. A remonstrance against removal was generally signed and sent to the department, but amounted to nothing. It seems when the present administration makes up its mind to remove a post-office or not to remove a post-master, petition or remonstrance is in vain.

An old man was sent to the poor house in a neighboring county not long since, who forty years ago barely missed the nomination for Congress, in a Kentucky district where nomination was equivalent to election. Reading this, one almost trembles to think what the fate of our William might have been, if he had not been fortunate when his ambition was young and tender.

Not long since a Holiness preacher was in Boone county, startling saint and sinner alike. He stated he was going to live always, and was divinely appointed to preach the devil's funeral. At the close of his service at one place, he announced that in a hundred years to a day from that time he would preach there again. It is thought his hearers were not favorably impressed with his sermon, however, as none of them thinks of going to his next performance, not even if the railroads give reduced rates.

A worthy exchange says: "A man named Spunk has just married a girl named Spink. How they have twisted it up, to be sure. Past tense, Spink; present tense Spunk; future tense, Spunk." Our worthy exchange should not display such levity in serious matters. That future tense it speaks of may never be realized. All the world knows married persons often speak to "spunky" to have a "spanking" time of it. One thing is certain—our worthy exchange thinks there is nothing in a name, else it would have been more respectful to Mr. Spunk.

A man in Sullivan county received a bottle by mail, labeled "California wine." His little boy complained of feeling badly, and was given a teaspoonful of the liquid. Immediately after swallowing it, he turned black in the face, fell unconscious to the ground and had convulsions. A doctor was summoned, but for a time his recovery was doubtful. The doctor pronounced the contents prussic acid, and it is believed to have been a deliberate attempt at poisoning by parties unknown. It seems the whiskey traffic ought to be satisfied with legalized slaughter.

A farmer in Monroe county has fallen upon an original plan to keep hunters away from his premises. Lately he caught a couple of young fellows on his farm, looking for game of any kind. He told them he didn't want to have them arrested, but would surely have to do so, if they didn't cut a cord of wood apiece. The situation was against them, so they chopped the wood, but it is safe to say they will go to the "happy hunting grounds" without paying that farmer's premises another visit. That farmer is a sort of Napoleon in resource.

A man in Schuyler county sold his hogs to a Glenwood dealer, accepting a partial payment to "bind the bargain." Going home he met a trader from Coatesville, who offered him five cents more per hundred than the other. He had only a few hogs, but owing to the hard times a nickel looked very large to him. He accepted the latter offer, and hid to Glenwood to tell the man there that his wife had sold the hogs in his absence. The dealer believed him and took

his money back. The farmer loaded his hogs into a wagon and started with them to Coatesville, but the road was long and rough, and half of them were smothered. Saturday in Glenwood he declared he intended to make 75 cents, but really lost \$50 by being a blankety blankascal.

Porter, after which the remains were conveyed to the cemetery, followed by a long concourse of sorrowing friends. Harry was an energetic and amiable young man, ever ready to do the right by his fellows. None knew him but to love him, none named him but to praise.
